

FOT16-M Optical Fiber Converter

Specification V3.0

Shenzhen Mooncell Electronics Co., Ltd

1 Product Overview

Product Introduction

FOT16-M is a cost-effective optical fibre converter launched by Mooncell. It performs mutual conversion between optical signals and electrical signals between the sending card/main control/video processor and the receiving card. Full-duplex high-efficiency and stable data transmission is suitable for scenarios of long-distance signal transmission.

Product Features

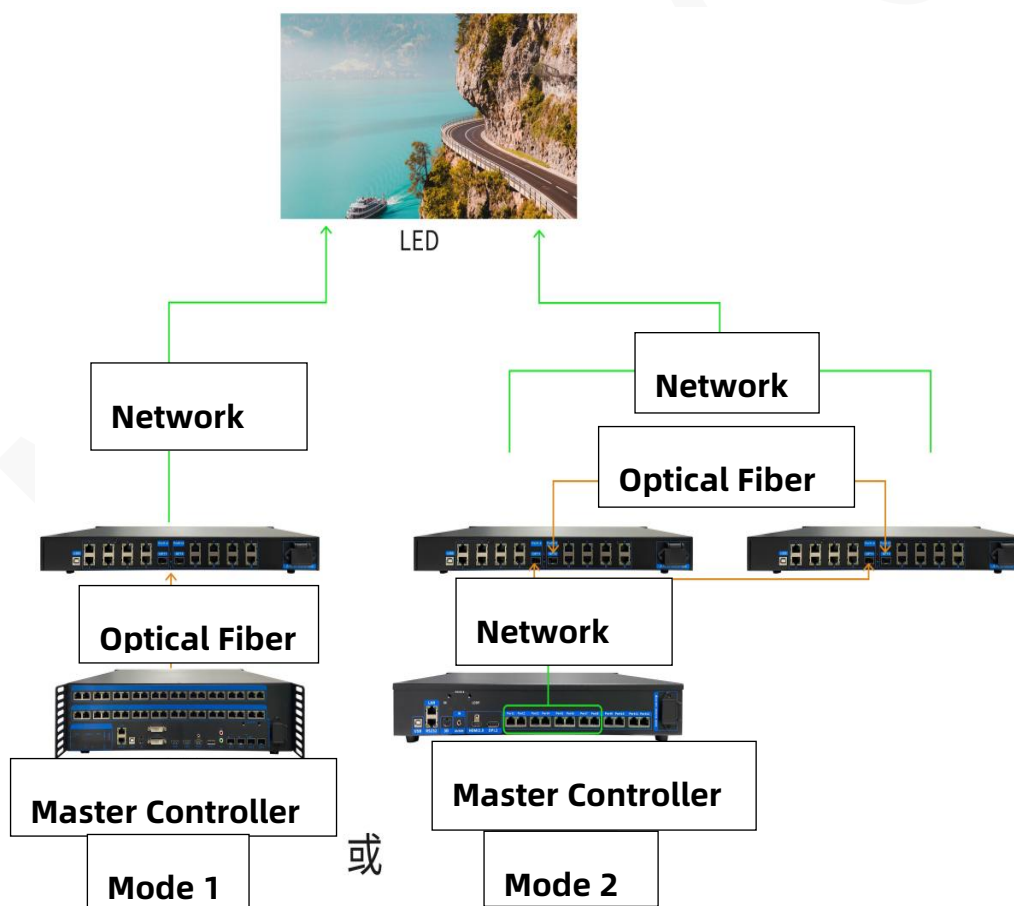

- 2*optical fiber interfaces, factory-configured optical fiber module, the bandwidth of a single optical fiber interface is 10Gbit/s
- Fiber module supports hot swap(plug and play)
- 16 Gigabit Ethernet ports, with a single Ethernet port bandwidth of 1Gbit/s
- One optical fiber interface corresponds to 8 Gigabit Ethernet ports, the first optical fiber interface corresponds to 1~8 Ethernet ports, and the second optical fiber interface corresponds to 9~16 Ethernet ports. The optical fiber interfaces work independently and do not interfere with each other.
- The serial number of the optical fiber converter (sender) and the

optical fiber converter (receiver) correspond to the connection of the network port, and the connection is easy.

- 2U chassis, easy to install
- The optical fiber interface does not need to be set, and the optical signal transceiver function is adapted according to the connection of the optical fiber and network cable.

Application Scenarios

It is applied to the scene of long-distance transmission of signals. (When the sending card/master controller has no fiber-optic module)

2 Product Parameters

Hardware Introduction

Front Side

Illustration		
#	Name	Illustration
1	On/Of	Equipment power switch, AC-100-240V~50/60HZ

Back Side

Back Side Panel Illustration		
Interface	QT	Illustration
USB	1	Connect to the computer
Gigabit Ethernet Port	1-8	Single Port Bandwidth:10Gbit/s OPT1 corresponds to Port1~Port8
Gigabit Ethernet Port	9-16	Single Port Bandwidth:10Gbit/s OPT2 corresponds to Port9~Port16

Indicator	2	<p>1: When the indicator light is Long Lasting On, the OPT1 fiber optic interface connection is normal.</p> <p>2: When the indicator light is Long Lasting On, the OPT2 fiber optic interface connection is normal.</p>

3 Product Specifications

Specifications

Electric Parameters	Input Voltage	AC-100-240V-50/60HZ
	Rated Power	10W
Operating Environment	Operating Temperature	-20℃ - 70℃
	Operating Humidity	10%RH-90%RH
Dimensions	480mmX160.28mmX44mm (LxWxH)	
Net Weight	2.89kg	
Packaging Info	Accessories:1×USB Cable、 1×Power Cable、 1×Certificate、 2×Optical fibre modules (Mounted on fiber optic interface) , 1 × LC-LC fiber cable	
	Carton Dimensions:515×130×355mm	
Single-mode fiber (dual core)	20KM	
Fiber Interface	LC	

Precautions

- **High voltage danger:** The working voltage of this product is AC - 100V ~ 240V.
- It is forbidden to immerse conductive objects such as liquid and metal fragments into the equipment to avoid safety accidents.
- Please use the device in a dry and clean environment.
